PARTNER

Gerard J. Onorata has been with Peckar & Abramson since 1992 in the construction practice. He concentrates primarily on representing general contractors. He has authored a number of articles related to ERISA preemption of the New York Lien Law, the New Jersey Bond Act and the New Jersey Construction Lien Law for the *Construction and Public Contracts Law Section Newsletter* of the New Jersey State Bar Association.

Gerard has worked on an array of cases arising out of projects being constructed within and outside the United States. He routinely handles multimillion-dollar litigations and arbitrations, some of which have resulted in several published decisions. To his credit, he has obtained a number of successful arbitration awards during his time at Peckar & Abramson and has developed a reputation as being a tough and aggressive adversary. His experience ranges from handling disputes that relate to large commercial projects to infrastructure projects to extremely high-end residential homes. He has been recognized by *New Jersey Super Lawyers*, *New York-Metro Super Lawyers* and *Best Lawyers* for his prominence in construction law. In 2019, Gerard was invited to become a member of the panel responsible for rating arbitrators on the American Arbitration Association's Construction Mega Projects panel. According to AAA, "the rating committee is a diverse group of advocates and in-house counsel representing owners, contractors, design professionals and insurers with experience in disputes arising out of significant construction and infrastructure projects".
