

US DOL and DOJ Announce Plans to Prosecute Workplace Safety Violations

The US Departments of Justice and Labor announced on December 17, 2015 a plan to investigate and prosecute safety violations. Under the new plan, the Justice Department’s Environment and National Resources Division and the U.S. Attorneys’ Offices will work with OSHA, MSHA (mine safety and health administration) and the DOL wage and hour division to investigate and prosecute work endangerment violations. A copy of the press release and MOU can be found [here](#) and [here](#).

In a memo sent to all 93 U.S. Attorneys, Deputy Attorney General Yates urged federal prosecutors to work with the Environmental Crimes Section in pursuing worker endangerment violations. The worker safety statutes generally provide for only misdemeanor penalties. However, prosecutors have now been encouraged to consider utilizing Title 18 and environmental offenses, which often occur in conjunction with worker safety crimes, to enhance penalties and increase deterrence. Statutes included in this plan are the Occupational Safety and Health Act (OSH Act), the Migrant and Seasonal Agricultural Worker Protection Act (MSPA) and the Mine Safety and Health Act (MINE Act)

On January 13 the GCA is hosting a panel Discussion on the Manhattan DA's Construction Fraud Task Force and other US Attorney Construction Industry Prosecutions at the Grand Hyatt from 8:30am-10:30am. Panelists include Tom Curran, former Assistant DA in the Manhattan DA’s office; Bart Schwartz, former Chief of the Criminal Division in the Southern District of New York; and Andrew Lankler, former Manhattan Assistant DA. The GCA strongly encourages all members to attend this important seminar. If you have not done so already, please contact Joanne Otero (JOtero@gcany.net) to register.

GCA Rolls Out Safe Backing and Spotting Class

The GCA was the first in the country to offer the newest ARTBA safety training on safe backing and spotting. The course, attended by 29 GCA members from 14 different companies, focused on helping workers to avoid dangerous traffic areas on roadway construction sites, to recognize hazards surrounding equipment, and to provide clear communication between drivers/operators and spotters through the use of standardized signals and communication. ARTBA developed this course knowing that OSHA is looking to address back over hazards through regulations.

During the four-hour course, attendees learned:

- A thorough understanding of spotting signals and communications between drivers/operators and spotters.
- Recognition of the “sphere of safety”—the hazards above, below and around moving equipment, and how to communicate those hazards to workers, operators and drivers;
- Traffic and pedestrian routing strategies as a result of hands-on training, classroom activities and a spotting skills test; and
- How to identify equipment blind spots, and train workers and operators how to safely navigate congested work areas.

All attendees received a certificate of completion from the ARTBA-TDF. Employers will also receive documentation for their insurance carriers, helping to potentially reduce cost or hold premiums in check.

GCA Sustains its Role of Infrastructure Advocate

Consistent with its mission, the GCA continues to keep the need for continued infrastructure investment front and center before media, opinion leaders and policy makers.

Within the last month the GCA advocated within the pages of the *Daily News* on behalf of using the city’s surplus revenues to fund Phase Two of the Second Avenue Subway. The GCA also highlighted the importance of infrastructure investment during an on-air interview with Channel 11 and focused on critical MTA investments in an interview on New York 1 scheduled to air later this month. The GCA was also active in supporting the regional infrastructure vision recently introduced by the Governor, with the GCA’s statement appearing in *Newsday*.

These media efforts are designed to sustain public support and press awareness of crucial infrastructure projects that only the proven expertise of GCA members are capable of efficiently building on behalf of the taxpayer. In the New Year the organization intends to increase its media outreach even further as the state and city reach critical milestones in determining the future of infrastructure investment.

Governor Cuomo Announces Major Infrastructure Initiatives for Long Island and the Region

In a series of carefully crafted announcements this past week, Governor Cuomo staked the rest of his tenure on making the type of transformational transportation and environmental investments that dovetail with the GCA’s annual report theme of taking our infrastructure and our economy “*Beyond the Status Quo*.”

At an event at the Long Island Association on January 5, the Governor announced plans to revive and enhance the building of a third track for the LIRR along 9.8 miles of the main line between Floral Park and Hicksville; relooking at a tunnel from Long Island to Westchester or Connecticut; constructing a customs inspection facility in Ronkonkoma for MacArthur Airport to allow international flights from MacArthur; commercial development around Republic Airport; studying a tunnel under Long Island Sound to Connecticut; studying the feasibility of a deepwater port in Shoreham, and; establishing a center for bioelectronics medicine in the Nassau Hub.

The GCA, quoted in *Newsday*, described the plans as “the roadmap we’ve needed for a long time.” With the full support, vision and perseverance of the Governor to move third track forward, the GCA is hopeful that this project and the others he identified will once and for all move towards construction. We will continue to help encourage legislative leaders in both houses to support this important initiative.

The following day, Governor Cuomo announced major plans for accelerating the Moynihan Station project and to link them to a new vision for the existing Penn Station complex across 8th Avenue. An RFP for

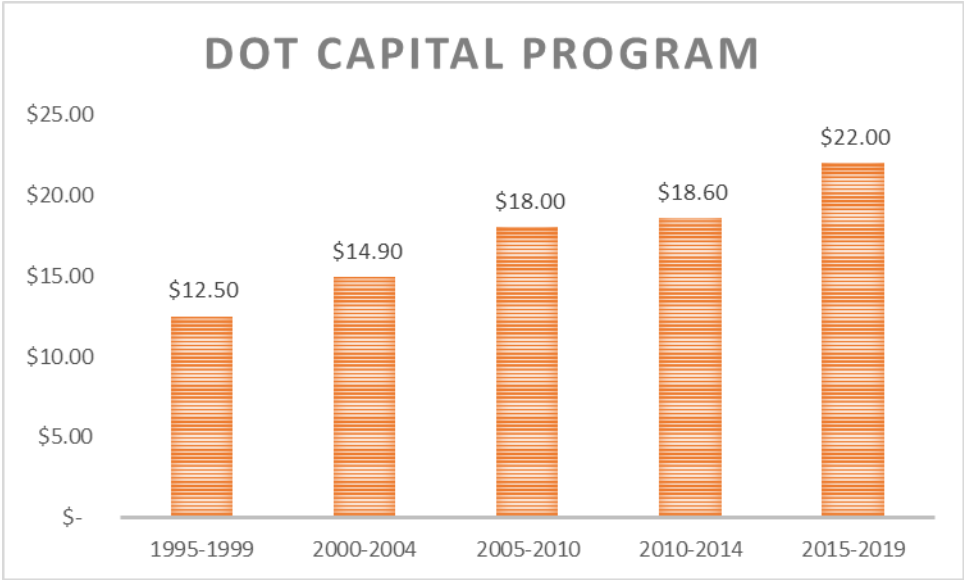

redevelopment of the site will be issued within the week and preliminary responses will be due in 90 days. While the plan appears to reset the Farley/Penn redevelopment efforts back to the beginning, the GCA will be vigilant in advocating for an expedited process. As the GCA stated in a statement immediately following the Governor’s announcement: “This project has undergone fits and starts for decades. We cannot afford to wait any longer. The redevelopment must move forward at lightning speed.”

On Thursday Governor Cuomo announced plans for a major expansion of the Javits Convention Center by 1.2 million square feet. A four-level, 480,000 square foot truck marshaling facility capable of housing hundreds of tractor-trailers at one time will also be constructed to improve pedestrian safety and local traffic flow. The proposal’s total projected cost is approximately \$1 billion, paid for by the Javits Center within existing resources.

Rounding out the week, Governor Cuomo held another event on Friday announcing his support for the MTA capital program and highlighting plans in the program to improve passenger experience at 30 stations through improved lighting, countdown clocks, expanded wi-fi and cell service and other enhancements. It was announced that the stations will be put out to bid as design-build contracts.

Gov. Cuomo Expected to Announce \$22B DOT Capital Plan

At the combined state of the state and budget presentation next week, Governor Cuomo is expected to announce a \$22 billion capital program for roads and bridges. While the details of the plan are unknown at this point, it would amount to an 18.3 percent increase from the last capital program.

Names in the News

Senator Majority Leader John Flanagan appointed Senator Cathy Young (R-Jamestown) to become the new chairwoman of the Senate Finance Committee. She succeeds Senator John DeFrancisco (R-Syracuse) who was elevated to the deputy majority leader post last year.

Upcoming GCA Events

January 13, 2016: Panel Discussion on the Manhattan DA's Construction Fraud Task Force and other US Attorney Construction Industry Prosecutions at the Grand Hyatt from 8:30am-10:30am. Panelists include Tom Curran, former Assistant DA in the Manhattan DA's office; Bart Schwartz, former Chief of the Criminal Division in the Southern District of New York; and Andrew Lankler, former Manhattan Assistant DA. The GCA strongly encourages all members to attend this important seminar. If you have not done so already, please contact Joanne Otero (JOtero@gcany.net) to register.

January 14, 2016: Installation of Officers Luncheon at the Grand Hyatt located at 109 East 42nd Street between Park and Lexington Avenues. The reception starts at 11:30am followed by Lunch at 12:15pm. Tom Wright, President of the Regional Plan Association will be the keynote speaker. The cost to attend is \$200. Please RSVP to Joanne Otero, JOtero@gcany.net by January 11.

January 18-22, 2016: 40 Hour Hazwoper Training at the GCA. Pre-registration is required. Please RSVP to John Murray, JMurray@gcany.net

January 19, 2016: GCA Law and Legislation Committee Meeting at 8:30am at the GCA. Contact Felice Farber at FFarber@gcany.net to RSVP.

February 2, 2016: Scaffold Law Reform Lobby Day in Albany. The GCA will be participating in a statewide lobby day seeking to reform the Scaffold Law. We encourage all GCA members to participate in this important event. You can register to participate directly [here](#) or contact Felice Farber at the GCA for more information (FFarber@gcany.net)

April 19, 2016: Save the Date for the annual NYRIC Legislative Reception in Washington DC

Other Industry Events

January 11, 2016: New York Building Congress Industry Luncheon at the Mandarin Hotel, featuring a keynote message from Governor Cuomo.

January 28, 2016: ABNY Breakfast with NYS Senate Majority Leader John Flanagan from 8:00am-9:30am at the Sheraton New York Hotel. You can purchase tickets [here](#).

January 28, 2016: DDC Contractor Open House from in the DDC Atrium (30-30 Thomson Street, LIC) from 9:00am-11:00am. Registration begins at 8:30am. Topics to be covered include projects in the pipeline, site safety, payee information portal, EBO system, and payments. Click [here](#) to register to attend.

February 25, 2016: Crain's New York Business Breakfast with Melisa Mark-Viverito from 8:00am-9:30am at the New York Athletic Club, 180 Central Park South. You can purchase tickets [here](#).
